

MICHAEL THELANDER

OBJECTIVE

I want to find a programming career in which I enjoy the work I do; one that is both challenging and fun, and enables me to improve my skills as a software engineer. I am very excited about the new technological innovations in the computer science field, and I would love to work with the companies that create them.

SKILLS

- Experience with an array of programming languages, including C#, Java, and C/C++.
- Experience in web development using Asp.NET, Classic Asp, and JavaScript. I have also worked with various tools associated with these technologies, such as Memcached, Web Services, and the Telerik toolset.
- Experience with multimedia products, such as Adobe Photoshop, Adobe Flash (ActionScript 3.0), and Adobe Illustrator.
- Experience with database management environments: Mainly SQL Server 2005/2008, but also some MySQL.
- Windows 7, XP, and Vista, but I also have some experience with Mac OSX and Ubuntu.

EDUCATION

9/21/04 – 6/10/2009

Southern Oregon University

‡
Computer Science

I attended Southern Oregon University where I received my Bachelor of Science degree in Computer science with an emphasis in Software Programming. I was a Dean's list student, and I graduated Cum Laude with an overall GPA of 3.5 out of 4.0.

WORK EXPERIENCE

R. Watson and Associates, Inc.

5/24/2008 - present

Software Developer

The company I currently work for designs and sells securities training tools, both online and in software. My duties there include maintaining

various websites written in Asp.NET, Classic Asp, and ISAPI DLLs, and designing software solutions in C# and SQL Server. Some of the projects I worked on were:

- Created a web portal in Asp.NET for company employees to track the progress on ongoing projects.
- Modified the existing stand-alone products to operate with a licensing key.
- Using the Telerik reporting tools, I created a program to run reports detailing weekly sales figures.
- Created a package of Windows Services written in C# to monitor various server log files.

Southern Oregon Education Services District 1/18/2008 – 6/18/2008

Programming Assistant - Intern

I worked for SOESD for six months as part of my Capstone project at Southern Oregon University. My duties there included assisting with weekly programming assignments and some minor customer service. Some of the projects I worked on included

- Designed and created a teaching tool using Adobe Flash.
- Edited C++ code for a remote support client.

Circuit City

4/1/2007 – 5/22/2008

Product Specialist

My duties as a product specialist included assisting customers with purchasing consumer electronics (primarily in the Home Theater department). The position required extensive knowledge of television and home audio technologies, as well as some knowledge in portable computers and car audio

COMMENTS

I enjoy working in a fast paced environment, and I love to learn new things. I am a quick learner and I have a good memory concerning details. I consider myself a perfectionist, who does not like to leave things half finished or done badly. I strive to expand my knowledge in a wide variety of topics, and I enjoy learning about new innovative technologies.
